

The New York City Department of Transportation
Division of Transportation & Planning cordially invites your company to submit a proposal for the following solicitation

PIN # 84122P0003 – 84121MBTP453
Next Generation Real Time Passenger Information Signs: Installation and Maintenance

Solicitation is available starting on November 17, 2021 and can be accessed by visiting the City Record Website at <https://a856-cityrecord.nyc.gov/RequestDetail/20211110114>

This Request for Proposals is for the procurement of high contrast, low-power digital Real Time Passenger Information (RTPI) signs (including ePaper or other low power display technologies) to communicate bus arrival predictions, bus route information, and alerts. The selected vendor will design, furnish, install and maintain new solar powered and hardwired low-power digital signs for use at bus stops in New York City, as well as provide maintenance services for bus stop information digital signage already installed on New York City streets. These new digital signs will allow riders along bus routes access to real-time information without requiring expensive build-out of subsurface power infrastructure, for all instances where sunlight enables solar installations.

Responses to this RFP must be submitted via PASSPort. To access the RFP, vendors should visit the PASSPort public Portal at <https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page>.
