**Total Design and Construction Support Services for
Component Rehabilitation of 9 Bridges, Citywide
Contract HBCR02B
Pin: 84110MBBR479**

Question 1.

I have a small MBE firm and would like a copy of the list of firms (with contact information) that downloaded the RFP for Project # HBCR02B - Total Design / Construction Support Services for Rehab of 9 Bridges. The list is needed so that I can contact them in an attempt to try to be a part of their team to help them meet the MBE requirements of the project. Other agencies, such as DDC, provide such lists for all of their projects to help MBE firms obtain work. Please call me if you have any questions regarding this request.

Answer 1.

Please see attached list of firms that downloaded the RFP for Project #HBCR02B. This list is updated as of April 29, 2010.

- b) The Consultant shall provide Itemized estimates for the cost of construction of the three alternative solutions.
- c) The Consultant shall include a discussion of any reports which have been previously prepared on the condition of and/or any recommendations proposed for the bridge.
- d) The Consultant shall indicate the proposed design criteria for each alternative; wherein such criteria shall include, but not be limited to, the following: materials (including grade and type), allowable stresses for new and remaining existing bridge elements.

16) Original Color Photos

17) Video Tape (or DVD equivalent)

a. Draft Bridge Reconstruction Project Report:

The Consultant shall submit three (3) Draft Bridge Reconstruction Project Reports which shall incorporate all of the above items. The Department will coordinate all comments and forward them to the Consultant for implementation/incorporation by the Consultant into the Final BRPR(s).

b. Final Bridge Reconstruction Project Report:

The Consultant shall furnish four (4) copies of the Final Bridge Reconstruction Project Report to the Department for approval as per the Time of Completion Schedules (in the Scope of Services section of this contract). In conjunction with the submission of the Final Documents, the Consultant shall also submit four (4) copies of the Final BRPR to the New York City Department of Records and Information Services, Acquisitions Unit.

3. PRELIMINARY PLANS

- a. Upon notice from the Department to proceed with the selection of the reconstruction scheme (not necessarily one presented in the Draft BRPR), the Consultant shall prepare Preliminary Plans, based on the approved scheme for either rehabilitating, reconstructing or replacing the structure. The Preliminary Plans shall show sufficient details to ensure constructability of the proposed scheme, including all existing and proposed utilities, and seismic retrofitting; acquaint affected parties with the project and project components; serve as an instrument for initial approval by affected parties; and serve as a basis for the development of the final Contract Documents. Large scale partial cross sections showing dimensions between utilities and structural members shall be provided for both the existing and proposed conditions. In addition, the Consultant shall provide detailed MPT drawings. The estimated number of drawings in the Preliminary Plans for each of the Project Bridge(s) is specified in the Project Bridge Data Sheet(s); this is not necessarily the maximum number. The Preliminary Plans shall also include a separate detailed Right-of-Way plan and itemized scope of work. The Preliminary Plan submission shall also include an up to date itemized cost estimate.
- b. The Consultant shall submit three (3) sets of the Draft Preliminary Plans to the Department for review. Upon incorporation of all comments received from the Department, the Consultant shall resubmit three (3) sets of the revised Preliminary Plans to the Department for approval.

THE CITY OF NEW YORK
DEPARTMENT OF TRANSPORTATION
DIVISION OF BRIDGES

ACKNOWLEDGEMENT RECEIPT OF ADDENDUM #2

Total Design and Construction Support Services for
Component Rehabilitation of 9 Bridges, Citywide
Pin: 84110MBBR479

Addendum #2

TOGETHER WITH ALL WORK INCIDENTAL THERETO

I, _____

(NAME AND TITLE)
