ENGINEERING SERVICE AGREEMENT (ESA) for
TRANSPORTATION PLANNING, TRANSPORTATION ENGINEERING, URBAN DESIGN AND
RELATED SERVICES, CITYWIDE

PIN NOS: 84107MBTR187 and 84107MBTR188

ADDENDUM NO. 2

Following is the answer to one the of questions/comments raised at the October 9, 2007 Pre-Proposal Conference and/or send via mail/e-mail for the referenced contracts, and which was not addressed in Addendum #1 dated 10/16/07.

Q10: What, if any, conflicts are there with the Congestion Pricing program and any requests for services for that project?

Would the consultants selected for these Engineering Service Agreements be precluded from the PMO and/or DBOM contracts for the City's Congestion Pricing Program?

A: All proposers must reveal any potential conflicts of interest regarding any work they may have already engaged in related to congestion pricing. With regard to future congestion pricing related RFPs and other requests for services, the Department does not currently anticipate a conflict of interest, however, in order to avoid any potential conflict or appearance thereof, the Department will make every effort not to assign any work orders related to congestion pricing to the successful proposers.
