

REQUEST FOR PROPOSALS

**Maritime Safety and Security Consulting Services for
Ferry Vessels and Facilities
PIN: 84108MBPT255**

Date: 6/24/2008

This is ADDENDUM #2 for the above referenced Request for Proposals (RFP), of which you have obtained a copy.

- QUESTION:** Section III(A)(2) of the RFP (page 5) discusses security assessments of the Agency's operations and facilities. Are these assessments considered maintenance in line with the current facility security plans or are they considered full security assessments of the facilities? We are under the assumption that they would constitute maintenance audits/assessments.

ANSWER: The security assessments will serve both functions. They are to be utilized as a full scale assessment of each facility and vessel if required. Additionally, as part of the annual security audit, NYCDOT will review the current assessment and ensure that its applicability stands.
- CHANGE:** Section III(A) of the RFP (middle of page 4) to read:
"*The Contractor* must offer plans covering all of the above listed facilities."

This AMENDMENT is hereby made a part of the original RFP document.
